## FRONTEND-DEVELOPER

## ABOUT ME

---

I am a driven and committed frontend developer specialized in JavaScript and frameworks such as React.js and who also has experience with backend development with Node.js and Express.js

## WORK EXPERIENCE

---

### Högalidsskolan - Stockholm Stad

#### Resurs/Elevassistent

#### August 2016 - Current

As a resource-assistant, I am part of the student health team together with special educators, special teachers, a counselor and a psychologist for working with students in need of special support.

### Arbetsförmedlingen

#### Frontend-developer/UX-Engineer - Internship

#### November 2021 - May 2022

As a UX engineer at Arbetsförmedlingen byggstenen Designsystem, I worked to help unify and strengthen the design system's mission internally and externally to improve the design management process and organization so that the Designsystem responds to needs and goals.

### Apple Inc

#### Swedish Data Engineer/Quality Assurance

#### April 2013 - October 2013

I was part of the Swedish Quality Assurance team to work with quality testing of software and hardware.

## EDUCATION

---
